

DESTINY COACHING - SO, WHAT ARE THE NEXT STEPS?

What will you do today, this week, this month, this year to actively grow?

Are you truly being stretched as a leader? If you answer yes, does your life reflect the results of this growth? It is time to go deeper and invest in ourselves to actively enhance the significant self we are dreaming of being.

If you carefully consider and ask those who are experienced, you will discover for yourself that by becoming part of **Destiny Professional Development** you are purposefully crafting your destiny and through this touching those around you.

Through this, you will have the opportunity and tools to gain valuable wisdom and knowledge. As a sports coach helps his players realise and attain their full potential on the playing field, so do we coach individuals to develop their skills and strategies to move towards significance.

“Excellence is an art won by training and habituation. We do not act rightly because we have virtue or excellence, but we rather have those because we have acted rightly. We are what we repeatedly do. Excellence, then, is not an act but a habit.”
